June 29, 2000

Dear Kalas Customer,

In response to California Proposition 65, Kalas has recently started to label all products with a consumer warning. The warning is intended to inform California residents that articles produced by Kalas contain certain bound ingredients listed in Proposition 65. Kalas is aware that not all end-users of our product reside in California. However, due to the potential of material being distributed to California, we have committed to supply warning labels on all products. For more information on California Proposition 65, you can visit an informational website at [www.oehha.ca.gov](http://www.oehha.ca.gov).

The attached MSDS information may be used by your company to ensure compliance with California Proposition 65. However, as shipped, all Kalas products will comply to labeling specifications outlined in Proposition 65, Section 12601; Clear and Reasonable Warnings.

Kalas has furnished the attached MSDS booklet as additional information to inform all customers that Kalas wire and cable products contain bound ingredients listed in Proposition 65. Kalas has created an individual MSDS for each product line. When referencing an MSDS in the attached booklet, determine the jacket compound on the wire or cable product purchased. Each MSDS has been classified by jacket compound material. If you are unaware of the jacket compound of the product purchased, please contact your Kalas Customer Service Representative. Thank you for your time.

Sincerely,

Brad A. Bowser, CPEA, RRPT  
Kalas Manufacturing  
Environmental, Health and Safety Coordinator

# KALAS MANUFACTURING PRODUCT MSDS OUTLINE

| CABLE/WIRE<br>TYPE | JACKET COMPOUND MATERIAL |        |             |         |                   |
|--------------------|--------------------------|--------|-------------|---------|-------------------|
|                    | PVC (1)                  | PE (2) | XLP/EVA (3) | TPE (4) | Neoprene/EPDM (5) |
| Flex cord          | X                        |        |             | X       |                   |
| Trailer cable      | X                        |        | X           | X       |                   |
| Automotive cable   | X                        |        |             |         | X                 |
| welding cable      | X                        |        |             | X       | X                 |
| Pump cable         | X                        |        |             | X       |                   |
| Single conductor   | X                        |        |             |         |                   |
| Boat Cable         | X                        |        |             |         |                   |
| Cathodic wire      |                          | X      | X           |         |                   |
| Fence wire         |                          | X      |             |         |                   |
| Irrigation wire    |                          | X      |             |         |                   |
| Construction cable |                          |        | X           |         |                   |
